### EXHIBITIONS

LOUIS-CYPRIEN RIALS - A STADIUM IN IRAQ - MAISON LA ROCHE - 20 AUGUST - 28 SEPTEMBER

In September, Louis-Cyprien Rials will be at Maison La Roche to present "Un stade en Irak".

The artist will share his vision of an emblematic yet little-known building: the Baghdad gymnasium, designed by Le Corbusier at the end of his life and completed after his death, which for a time bore the name of Saddam Hussein before housing a prison.

**Discover the exhibition in the presence of the artist:**

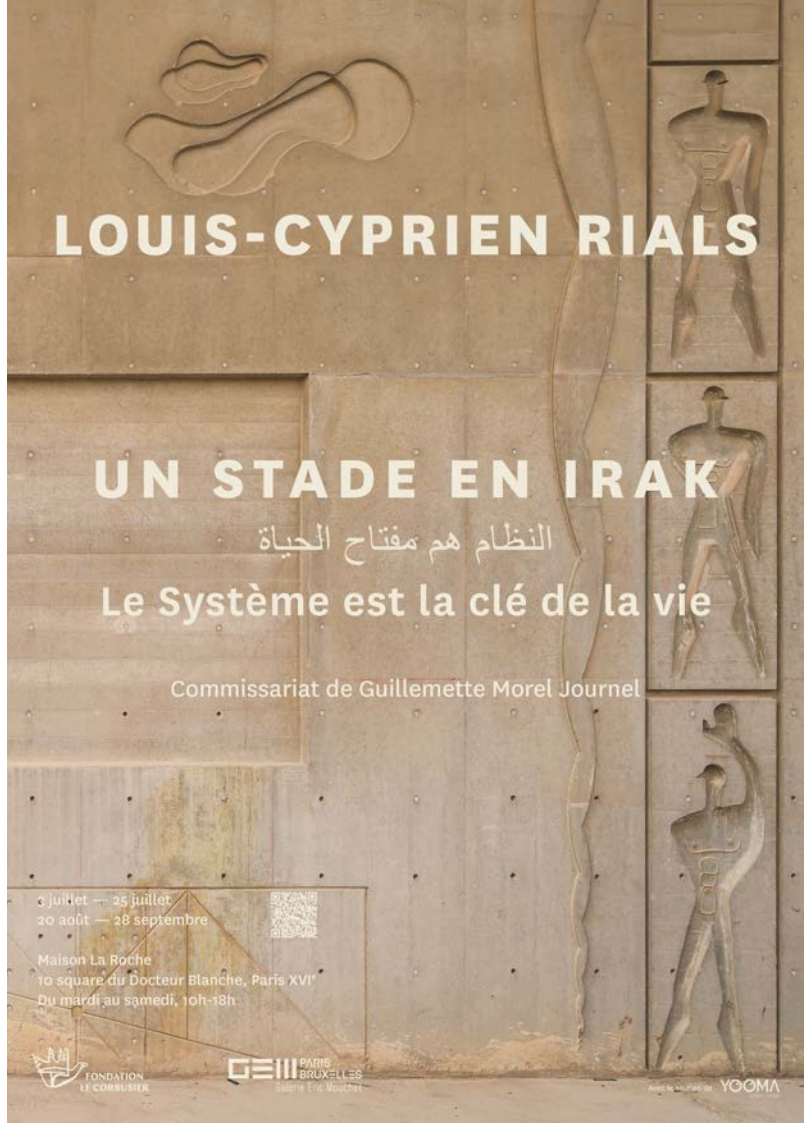

- Saturday 7 September at 4pm
- Tuesday 10 September at 5pm
- Friday 20 September at 4pm

The exhibition is produced with the support of YOOMA Urban Lodge hotels.

Echoing the Paris 2024 Paralympic Games, the exhibition presents the Iraqi handifoot team that Louis-Cyprien Rials followed for three years.

Discover their story on video at Maison La Roche and on YouTube.

**MICHEL MOUFFE - CONVENT OF LA TOURETTE - 16 SEPTEMBER - 14 NOVEMBER 2024**

Belgian artist Michel Mouffe is exhibiting at the Couvent de la Tourette, 41 years after his exhibition at the Maison Guiette.

Since his first exhibition at a Corbusian venue, his work has focused on light, silence and the inner, spiritual quest.

His works are invitations to take a chromatic and meditative stroll.

#### **MISSION STÉPHANE BERN - VILLA STEIN DE MONZIE**

The Heritage Mission, entrusted to Stéphane Bern and implemented by the Fondation du Patrimoine, has selected the project to restore Villa Stein de Monzie. The aim is to remedy the deterioration observed since 2015. The Fondation Le Corbusier supports this project, emphasising the urgent need to preserve this important architectural heritage.

The work is planned in two phases: the first concerns the west and north façades. This work is a priority because of the risk of falling cladding and structural instability. The second phase concerns the east and south façades, as well as the associated joinery.

## PUBLICATIONS

### FERNANDO ZAPARAÍN HERNÁNDEZ, *SAVOYE AS BUILT*

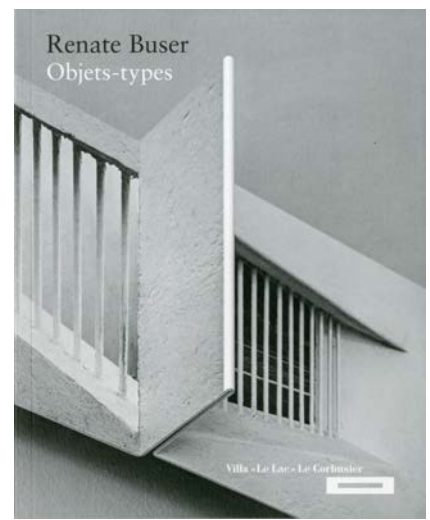

This book offers a 1:20 scale reconstruction of the house as it was built in 1930. Through a comparative study of plans, photographic analyses, in situ surveys and the development of a 3D model of the structure-envelope, the author offers a detailed study of the Villa Savoye. He also looks back at its history, from the first sketch to the controversial restorations of the 1960s.

### RENATE BUSER, *TYPICAL OBJECTS*

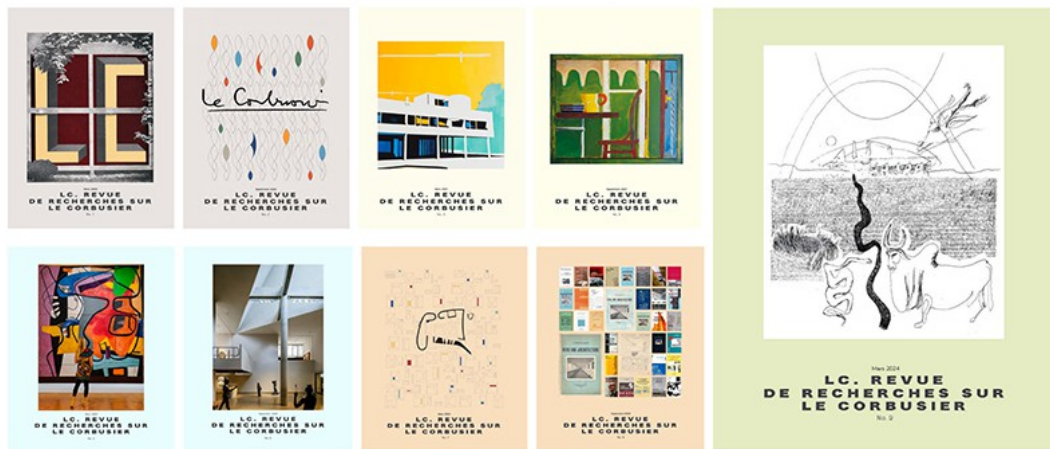

Catalogue of the *Objets-types* exhibition at the Villa "Le Lac".

Renate Buser's standard objects are photographs of the villa, printed on aluminium profiles. They show the villa from particular angles, emphasising both aesthetics and functionality.
